EDUCATION

- National Institute of Technology, Silchar** Assam, India
B.Tech in Electronics and Communication Engineering; CGPA: 7.32 2023 – 2027 (*Expected*)
- Resonance Junior College** Hyderabad, India
Intermediate; Percentage: 98.5 2021 – 2023
- Raman High School** Warangal, India
SSC; CGPA: 10 2016 – 2021

INTERNSHIP EXPERIENCE

- S.N. Bose Summer Internship Program** NIT Silchar, Assam
Financial Fraud Detection using Graph Neural Networks June 2026 – Present
 - Conducting research on Graph Neural Networks (GNNs) for financial fraud detection with a focus on the GraphSAGE architecture.
 - Analyzing financial transaction networks by representing accounts and transactions as graphs to investigate node-level fraud detection techniques.
 - Studying graph representation learning, message passing, and GraphSAGE-based node embedding methods for detecting fraudulent activities.
 - Tools Used: Python, PyTorch, PyTorch Geometric (PyG), NumPy, Pandas.

PROJECTS

- CollegeNet – MERN Stack Community Platform — [Live Demo](#) — [GitHub](#)** Personal Project
Full Stack Developer Jan 2026 – Present
 - Engineered a full-stack MERN platform for college communities to report lost & found items, buy/sell/trade products, post wanted requests, and communicate through real-time messaging.
 - Implemented secure JWT-based authentication with email verification, password reset functionality, and protected routes for enhanced security.
 - Built comprehensive Lost & Found, Marketplace, and Wanted Post modules with image uploads, item descriptions, claim verification workflows, and listing management features.
 - Integrated Socket.io to enable real-time user-to-user messaging, instant notifications, persistent conversation history, and live activity updates.
 - Designed and structured RESTful APIs using Express.js and MongoDB for user management, item listings, messaging, notifications, and marketplace operations.
 - Leveraged ImageKit for cloud image storage, optimization, and fast content delivery across the platform.
 - Created a responsive and user-friendly frontend using React and Tailwind CSS, ensuring a seamless experience across desktop and mobile devices.
 - Technologies: React.js, Vite, Node.js, Express.js, MongoDB, Socket.io, JWT, ImageKit, Tailwind CSS, JavaScript, HTML, CSS.
- CollegeNet Analytics – End-to-End Data Analytics Layer — [GitHub](#)** Personal Project
Data Analyst / Database Developer June 2026 – Present
 - Built an end-to-end data analytics project for the CollegeNet Lost & Found and Trading platform using **SQL, Python, Excel, and Power BI**, covering the complete analytics workflow from data generation to dashboard development.
 - Designed a fully normalized relational database with **7 interconnected tables** using primary keys, foreign keys, constraints, indexes, views, stored procedures, and triggers.
 - Authored Python scripts to generate realistic synthetic datasets containing **100+ users, 300+ items, and 30+ trade records**, simulating real-world campus activities.
 - Wrote **50+ business-oriented SQL queries** to analyze recovery rates, department-wise performance, category trends, monthly activity, user engagement, and trade statistics.
 - Created interactive dashboards in **Excel and Power BI** featuring KPI cards, pivot tables, trend analysis, and visual reports to provide actionable insights for campus resource management.
 - Technologies: MySQL 8.0, SQL, Python, Excel, Power BI, Data Modeling, Data Cleaning, ETL, Data Visualization, Git, GitHub.

SKILLS

- Languages:** Python, C, C++, JavaScript, SQL, HTML, CSS.
- Web Development:** React.js, Node.js, Express.js, Tailwind CSS, REST APIs, JWT Authentication, Socket.io, Vite.
- Data Science & ML:** NumPy, Pandas, Matplotlib, PyTorch, PyTorch Geometric (PyG), Graph Neural Networks (GNNs), GraphSAGE, Exploratory Data Analysis (EDA).
- Databases & Analytics:** MySQL, MongoDB, Database Design, Normalization, Indexing, Views, Stored Procedures, Triggers, Power BI, Excel, ETL, Dashboard Development.
- Tools & Platforms:** Git, GitHub, Postman, ImageKit, Linux, Windows.
- Soft Skills:** Leadership, Teamwork, Problem Solving, Public Speaking, Time Management.

ROLES & RESPONSIBILITIES

- Think India, NIT Silchar** Silchar, Assam
Content & Documentation Team Member August 2023 – Present
 - Prepared content, reports, and official documentation for technical and cultural events.
 - Coordinated with team members to create promotional materials and maintain event records.

OTHER INTERESTS & ACTIVITIES

- Passionate about competitive programming, regularly solving DSA problems on LeetCode to sharpen problem-solving skills.
